Automotive Heating & Air Conditioning

Why Not? After all, no-one had ever done it before. It would be one of the longest of all overland journeys – half way round the world, from the English Channel to Singapore. They knew that several expeditions had already tried it. Some had got as far as the deserts of Persia; a few had even reached the plains of India. But no one had managed to go on from there: over the jungle clad mountains of Assam and across northern Burma to Thailand and Malaya. Over the last 3,000 miles it seemed there were ‘just too many rivers and too few roads’. But no-one really knew ... In fact, their problems began much earlier than that. As mere undergraduates, they had no money, no cars, nothing. But with a cool audacity, which was to become characteristic, they set to work – wheedling and cajoling. First, they coaxed the BBC to come up with some film for a possible TV series. They then gently persuaded the manufacturers to lend them two factory-fresh Land Rovers. A publisher was even sweet-talked into giving them an advance on a book. By the time they were ready to go, their sponsors (more than 80 of them) ranged from whiskey distillers to the makers of collapsible buckets. In late 1955, they set off. Seven months and 12,000 miles later, two very weary Land Rovers, escorted by police outriders, rolled into Singapore – to flash bulbs and champagne. Now, fifty years on, their book, ‘First Overland’, is republished – with a foreword by Sir David Attenborough. After all, it was he who gave them that film.

Ferrari

Born in 1900 to a soon-to-be-widowed postmaster's wife in a small French village, Hélène Delangle's background offered no suggestion of the extraordinary life she was to lead. The first step was to leave the country behind and head to the city -- in this case, a Paris in the grip of an intoxicating 1920s blend of creativity and debauchery. She became a dancer, and then a stripper. But the demi-monde of gauze veils and admirers was not enough. A visit to the Actors' Championships, a uniquely French meeting of the theatrical world with the race-track, opened her eyes to the glamorous combination of machines and speed. Quickly establishing herself as a racer of uncommon talent and audacity, the beautiful woman now known as Hellé Nice -- Hellish Nice to her British fans -- then caught the attention of none other than Ettore Bugatti, founder of the marque with which her name will always be associated. And yet, despite the fame and the fortune she amassed in an unprecedented career, she died penniless and alone, an old woman in a crumbling Nice flat surrounded only by memories. THE BUGATTI QUEEN is the story of a great pioneer of motor racing who happened to be a woman. Re-creating her rollercoaster career with great verve and panache, Miranda Seymour brilliantly shows us a life now forgotten -- and makes it unforgettable.

Engine Lubrication

Derek Bell's name became inextricably linked with that of Porsche during his long and hugely successful career as a racing driver. In this new 276-page book, Bell collaborates with renowned motorsport author Richard Heseltine to give the reader a very personal insight into his experiences racing for the legendary German marque. The approach taken by this latest publication from Porter Press International is to look at every race Bell drove for Porsche, in detail and with revealing comments from the book's subject. Light is cast on Bell's most prestigious victories with Porsche - four of his five in the Le Mans 24 Hours, three in the Daytona 24 Hours, two in the World Sportscar Championship - and many more besides. Bell describes the Porsches he raced, from the fearsome 917 to the iconic 956, 962, and 911. And he shares his thoughts on the now-legendary drivers he raced with, including six-time Le Mans winner Jacky Ickx, the famously flamboyant Hans Stuck, and two immense talents who lost their lives to the sport, Jo Siffert and Stefan Bellof. The overall effect is a fascinating trip back in time to a golden era for Porsche and sports car racing as a whole.

Ferrari 1947-1997

CMC 614 is the registration number of an historic Aston Martin Ulster which has, without doubt, competed

in more races than any other Aston. Built in 1935 to the same specification as the factory team cars, it took part in the Le Mans 24 Hour race, the Mille Miglia, and the Tourist Trophy in 1935. Eddie Hall and Count Johnny Lurani were among the celebrated drivers who raced it in its first season. The 1.5 litre Ulster model marked the peak of Aston's pre-war achievements and marque enthusiasts recognize CMC 614 as one of the finest examples of the 28 made – as well as the most raced Aston of all time.

The Alcoholism and Addiction Cure

The lot of the motorist has changed greatly over the last hundred years. In the early twentieth century, only the most wealthy could afford a motor car and there were very few rules and regulations. Now most British people own a car and are protected by air bags and crumple zones, but also hemmed in by parking regulations, traffic jams and speed restrictions. In this richly illustrated history of the past hundred years of motoring, expert Jon Pressnell explores the main developments, such as the introduction and refinement of the driving test; the improvement of roads and the impact of the motorway; and how affordable cars such as the Mini have helped democratise driving. The evolution of the car itself is also explored, from the coachbuilt custom-made cars of the 1910s, through to the more attainable mass-produced models of the inter-war years, and finally to today's complex and sometimes hybrid-powered vehicles.

Veteran Motor Cars

For 30 years from 1927 until 1957 the real Mille Miglia was the \"race of excellence\". A unique event of over 1,600 kilometres across Italy, the stars of which were some of the world's greatest car manufacturers, among them Alfa Romeo, Mercedes-Benz, Maserati, Ferrari, Jaguar and Aston Martin. And their cars were driven, naturally, by some of the equally great champions of the time, like Tazio Nuvolari, Achille Varzi, through to Juan Manuel Fangio and Stirling Moss as well as Alberto Ascari, Clemente Biondetti, Piero Taruffi and many others. Count Giannino Marzotto won the race twice in Ferraris in 1950 and 1953 and said the Mille Miglia was \"a synthesis of dynamism, freedom, challenge, courage and calculation\". The story, or better the stories, of that legendary race live again in this book, which tells the tales of the classic \"Bresciana\"

This book presents the use of a microprocessor-based digital system in our daily life. Its bottom-up approach ensures that all the basic building blocks are covered before the development of a real-life system. The ultimate goal of the book is to equip students with all the fundamental building blocks as well as their integration, allowing them to implement the applications they have dreamed up with minimum effort.

Public Roads: a Journal of Highway Research

The Great Cars series returns with an in-depth look at the 1963 Lightweight Jaguar E-type, chassis number 49 FXN. This Porter Press series selects individual vehicles that stand out in the racing world, and commits to a full biography of them. This luminary among Jaguar Lightweight E-types made its race debut at the Nurburgring, freshly modified for aerodynamics and with an incredible engine developed by masterminds Dr. Samir Klat and Prof. Harry Watson. Peter Lumsden and Peter Sargent proved its high-speed potential by running third in the GT class at Le Mans the next year, and three months later, it was the best-placed E-type at the Tourist Trophy at Goodwood, as well as fifth in the GT class. 49 FXN's successes go on, and you'll see them all in full across nearly 300 period images, many previously unpublished, and plenty of full color studio photography.

Aston Martin Ulster

This book begins with the first Chevrolet SS models in 1964 and goes all the way through the SS Chevelle's last year (1973). Also featured are the SS454 and small-block varieties.

A Century of Motoring

This textbook introduces and explores the ideas, practices and philosophy of engaged Buddhism. The movement holds that suffering is not just caused by the cravings of the mind, but also by political and social factors; therefore, engaged Buddhists 'engage' with social issues to achieve liberation. Paul Fuller outlines the movement's origins and principles. He then offers a comprehensive analysis of the central themes and issues of engaged Buddhism, offering new insights into the formation of modern Buddhism. The range of issues covered includes politics, gender, environmentalism, identity, blasphemy and violence. These are illustrated by case studies and examples from a range of locations where Buddhism is practised. Discussion points and suggested further reading are provided at the end of each chapter, which will further enrich undergraduates' grasp of the topic.

Enginology

Every year on the first Sunday in November four hundred pre-1905 cars gather in Hyde Park for the annual Brighton Run, at one time unfortunately known as the Old Cocks Park. It is one of Britain's greatest annual

motoring spectacles. Organised by the Royal Automobile Club with the co-operation of the Veteran Car Club, this event is reputedly watched by a million people over the 52 mile (84km) route. Its origins go back to 1896 when the law changed and the light locomotive was at last allowed to travel up to 12 mph (19km/h) and did not have to be preceded by a man walking in front. To celebrate this change in the law the Motor Car Club ran 'The Emancipation Run' from London to Brighton. Revived in 1927, veteran cars have been making this annual pilgrimage ever since - war years and 1947 excepted.

How to Restore & Improve Classic Car Suspension, Steering & Wheels

If you own one of these fabulous cars then you know how fun it is to drive. And, you probably know that your MINI is packed with some of BMW's latest automotive technology. But if you want to maintain and repair your car yourself (or just want to understand what's going on under the bonnet), you'll be wanting the MINI Cooper, Cooper S 2002-2004 Service Manual by Bentley Publishers. This is the only comprehensive, single source of service information and specifications available for MINI models from 2002-2004. The aim throughout this manual has been simplicity, clarity and completeness, achieved through practical explanations, step-by-step procedures and accurate specifications. Whether you're a professional technician or a do-it-yourself MINI owner, this manual will help you understand, care for and repair your car. Bentley Publishers' new MINI service and repair manual is based on factory information, but is heavily supplemented by hands-on experience and illustrations. The service manual editorial team has disassembled and photographed several MINI models for this project in the Bentley Service Information Research Center.
